Jordan Lee

Senior Data Analyst

SUMMARY

Data analyst with eight years of experience turning messy operational data into decisions. Built the reporting layer three product teams use every day.

EXPERIENCE

Senior Data Analyst, Globex | 2020 - Present

- Built the revenue dashboard used by the executive team each week.
- Cut the monthly close reporting from five days to one with dbt models.
- Led a team of three analysts across finance and operations.

Data Analyst, Initech | 2016 - 2020

- Designed the churn model that saved 1.2M in annual revenue.
- Automated twelve weekly reports with Airflow.
